# Janardhanarao Burle

**Angular** | **Flutter** Developer

In my **5.3 years** as a **System Engineer**, I have acquired knowledge on Web and Mobile Application Development, Architecting front end frameworks such as Angular. In an effort to enhance my knowledge and further my career, I'd like to bring these skills to benefit the organisation.

## Work Experience

### Application Developer – Frontend | Qatar Islamic Bank | Tata Consultancy Services Pvt Ltd.

**Present**

**QIB Mobile Banking Revamp**
- Working as a part of Flutter Development Team, designed and built resuable Widgets that let the team use in their respective User Story development, which is a key factor in delivering QIB Mobile Application on time.
- Worked on the BLOC pattern state management system, which helped to separate Business Logic from UI and to have better codebase maintainability.
- Cachied GET Request calls using Flutter Cache Manager to increase data retrieval performance and used Lottie and SVG packages for best App user experience.
- Used localization to enable apps with English and Arabic languages resulting in almost 15% new customers.

`Flutter` `Dart`

**Jan, 2021**

**Mobile Banking Admin Panel Application**
- Developed a Maintainable, Multilingual , Secure and Extendable Angular Architecture with Angular Material, Husky, TSLint, prettier, stylelint etc.
- Designed the the application in modular architecture with role based authorization / access control
- Pre & Post serve, build hooks are added to the application using Node Js for continuous development.
- SCSS styling was added to write modular, maintainable, less code.
- UI Development, Service Integration and Unit testing using spectator.

`Angular 10` `Angular Material` `HTML5` `SCSS`

**Feb, 2020**

**Branch Customer Onboarding and Customer Risk Profiling**
- Worked on enhancing the Existing customer onboarding application inline to complete the CRP journey.
- Implemented the Field Rework highlighter for better user experience on rework journey of the customer application.
- Created reuable components which can be accessed in different roles of the application.

`Angular 7` `Angular Material` `HTML5` `SCSS`

**Oct, 2019**

### Application Developer – Frontend | Commercial Bank of Dubai | Tata Consultancy Services Pvt Ltd.

**Oct, 2019**

**Raffle Draw**
- Complete UI Development using Angular.
